

## MEMORANDUM

**To:**            **Federally Registered Property and Casualty Insurance Companies**

**Date:**        **March 10, 2014**

**Subject:**    **Earthquake Exposure Data Filing**

---

### **2014 Earthquake Exposure Data Filing (Due April 15, 2014)**

Companies that have earthquake exposure are reminded that they are required to file the [Earthquake Exposure Data Form \(effective date January 2014\)](#) with OSFI by April 15, 2014. Companies without material earthquake exposure should submit a letter stating this fact.

Companies are asked to submit one copy of their letter or completed form to the following address or by email [kun.zhang@osfi-bsif.gc.ca](mailto:kun.zhang@osfi-bsif.gc.ca).

Kun Zhang, Actuarial Specialist  
Actuarial Division, OSFI  
P.O. Box 39  
121 King Street West  
Toronto, ON M5H 3T9

Due to the change in the Cresta Zone definitions from that used in the current version of the form, some companies may not be able to complete the Total Sum Insured portion of the form and thus, not be able to calculate the default PMLs. If this situation applies to your company, please indicate this in your filing and include a table showing the Total Sum Insured for each of the new Cresta Zones. Note that all information pertaining to the modelled PML must be completed from page 7 onward. Also note that all companies using models must complete page 6 of the filing, which consists of a description of the assumptions used in determining the modelled PML.

### **New Earthquake Exposure Data Form with an Effective Date of January 2015**

Today, OSFI is also publishing a new version of the [Earthquake Exposure Data Form \(effective date January 2015\)](#). [The accompanying letter](#) provides more background on the new form. Please note this form is published to give companies sufficient time to prepare for the transition, and should **not** be used for the April 15, 2014 filing.

If you require more information, do not hesitate to contact Kun Zhang at (416) 952-1651 or [kun.zhang@osfi-bsif.gc.ca](mailto:kun.zhang@osfi-bsif.gc.ca).
