Introduction

The purpose of this Instruction Guide is to assist administrators of federally regulated private pension plans (FRPPs) registered, or filed for registration, under the [Pension Benefits Standards Act, 1985](#) (PBSA) in completing the:

- [OSFI 49 Annual Information Return \(OSFI 49 or AIR\)](#);
- [OSFI 49A Schedule A – Canada Revenue Agency Information Requirements \(OSFI 49A\)](#); and the
- [Pension Plan Annual Corporate Certification \(PPACC\)](#).

These returns are required to be filed with the Office of the Superintendent of Financial Institutions (OSFI).

The Instruction Guide does not supersede the requirements of the PBSA, the [Pension Benefits Standards Regulations, 1985](#) (PBSR), the [Directives Of The Superintendent Pursuant To The Pension Benefits Standards Act, 1985](#) (the Directives), or any Guidelines that OSFI has issued or may issue regarding the administration of FRPPs subject to the PBSA.

Who must file

The administrator of a FRPP registered, or filed for registration, under the PBSA, or its agent, must file the OSFI 49, the OSFI 49A, and the PPACC.

Filing due date

The OSFI 49, OSFI 49A, and PPACC must be filed within six months after the end of the plan year to which they relate¹ while there are assets remaining in the pension fund.

Filing requirements

The administrator of a FRPP must file the OSFI 49, OSFI 49A, and PPACC using the [Regulatory Reporting System \(RRS\)](#)².

The information must be entered directly into the on-line web forms in RRS. All values reported in the OSFI 49 and OSFI 49A must be expressed in dollars, not thousands of dollars.

For further information on how to file using RRS, please consult the [Manage Financial Returns User Guide for Insurance Companies and Private Pension Plans \(PDF\)](#) and [other RRS training material](#) available on the OSFI website. RRS training material can also be found in RRS in the Documents folder under Training and Support.

Several fields in the returns cannot be edited by the filer; such fields are either auto-calculated based on data previously entered in the return or are pre-filled based on data entered in previous years' returns. Pre-filled fields based on data collected in previous years' returns can only be changed by resubmitting the historical return with accurate data. Instructions for resubmitting an accepted return can be found on page 51 of the [Manage Financial Returns User Guide for Insurance Companies and Private Pension Plans \(PDF\)](#).

Plan administrators are expected to keep a copy of the OSFI 49 and OSFI 49A in their records. This copy is to be signed by the plan administrator and be available for examination by the plan members or other parties³.

Information in the OSFI 49A is shared with the Canada Revenue Agency (CRA) only after the OSFI 49, OSFI 49A, and PPACC returns are submitted and accepted in RRS. As such, plans may be subject to CRA late filing penalties as per the *Income Tax Act* and *Income Tax Regulations* if the filing process is incomplete.

Pension Plan Annual Corporate Certification (PPACC)

The PPACC certifies that the Organization Profile has been reviewed and that roles and contact information in RRS are complete and up to date. Roles and contact information can be updated in RRS by creating and submitting a return for each role for which information is to be added or updated. Please refer to page 44 of the [Manage Corporate Returns User Guide \(PDF\)](#) for additional information on creating and submitting corporate returns to update roles and contact information in RRS.

While OSFI expects plans to review and update their Organization Profile, Appendix A outlines the primary information related to the ongoing administration and filing of regulatory returns for a FRPP.

If there is any information that needs to be added, removed or updated in the plan’s Organizational Profile, the following steps should be followed to update the information:

1. Create the applicable return(s). To determine which return to create for the information that needs to be updated, please refer to Appendix A. For Instructions on creating returns to update a plan's Organizational Profile, follow the steps listed in the [Manage Corporate Returns Quick Reference Guide \(PDF\)](#) or, for more detailed instructions, refer to Section 3.5 - General Instructions on How to Create a Corporate Return of the [Manage Corporate Returns User Guide \(PDF\)](#).

If names or contact information need to be updated for more than one plan role, there is the option of creating one return and entering all the updates in the single return or creating a separate return for each update.

Once the necessary returns have been created, they will appear in the Draft Returns section, the same location where all other returns are stored until completed and submitted.

2. Open each created return in the Draft Returns section and complete the necessary updates. For instructions on completing these updates, refer to Section 4.0 – Specific Corporate Returns Instructions of the [Manage Corporate Returns User Guide \(PDF\)](#).

As with other returns in the Draft Returns section, these returns can be saved in draft form until they are fully completed and ready to submit.

3. Once a return is ready to submit, go to the Submit Return sub-menu in the Submission section and click on the "submit" button next to the return you wish to submit.

A plan's Organization Profile can be updated by submitting a corporate return through RRS at any time during the year. Updates should be made as soon as changes occur. This will expedite the completion of the PPACC at year end.

Once information in the plan's Organizational Profile is complete and up to date, it can be certified by completing and submitting the PPACC.
