## General

The purpose of this instruction guide (the Guide) is to assist administrators of pooled registered pension plans (PRPPs) subject to the [Pooled Registered Pension Plans Act](#) (PRPP Act) and the [Income Tax Act](#) (ITA) in completing the:

- [Pooled Registered Pension Plan Annual Information Return \(PDF\)](#)<sup>1</sup> (PRPP AIR);
- Filing of the Auditor's Report<sup>2</sup>; and the
- Pension Plan Annual Corporate Certification (PPACC).

These returns are required to be filed with the Office of the Superintendent of Financial Institutions (OSFI).

The Guide does not supersede the requirements of the PRPP Act, the [Pooled Registered Pension Plans Regulations](#) (the PRPP Regulations), the [Directives of the Superintendent Pursuant to the Pooled Registered Pension Plans Act](#) (the Directives), or the ITA or the [Income Tax Regulations](#).

## Who Must File

The administrator of a PRPP, or its agent, subject to the PRPP Act and the ITA must file the PRPP AIR, an Auditor's Report and the PPACC.

## Filing Due Date

The PRPP AIR, an Auditor's Report and the PPACC must be filed within four months after the end of the plan year to which they relate [3](#).

## Filing Requirements

The administrator of a PRPP must file the PRPP AIR, an Auditor's Report and PPACC using the Regulatory Reporting System (RRS) [4](#). The required information for the PRPP AIR and PPACC must be entered directly into the on-line web forms in RRS. All amounts reported in the PRPP AIR must be expressed in dollars, not thousands of dollars. The Auditor's Report must be submitted by uploading a copy of the document in RRS.

For further information on how to file using RRS, please consult the [Manage Financial Returns User Guide for Insurance Companies and Private Pension Plans \(PDF\)](#) and [other RRS training material](#) available on the OSFI website. RRS training material can also be found in RRS in the Documents folder under Training and Support.

Several fields in the returns cannot be edited by the filer; such fields are either auto-calculated based on data entered in the return or are pre-filled based on data entered in previous years' returns. Pre-filled fields based on data collected can only be changed by resubmitting the historical return with accurate data. Instructions for resubmitting an accepted return can be found on page 51 of the [Manage Financial Returns User Guide for Insurance Companies and Private Pension Plans \(PDF\)](#).

Plan administrators are expected to keep a copy of the PRPP AIR in their records. This copy is to be signed by the plan administrator and be available for examination by the plan members or other parties [5](#).

## Pension Plan Annual Corporate Certification (PPACC)

The PPACC certifies that the Organization Profile has been reviewed and that roles and contact information in RRS is complete and up-to-date. Roles and contact information can be updated in RRS by creating and submitting a return

for each role for which information is to be added or updated. Please refer to page 44 of the RRS [Manage Corporate Returns: User Guide \(PDF\)](#) for additional information on creating and submitting corporate returns to update roles and contact information in RRS.

OSFI expects PRPP plan administrators to review and update their Organization Profile. Appendix A outlines the primary information related to the ongoing administration and filing of regulatory returns for a PRPP.

If there is any information that needs to be added, removed or updated in the PRPP's Organizational Profile, the following steps should be followed to update the information:

1. Create the applicable return(s). To determine which return to create for the information that needs to be updated, please refer to Appendix A. For instructions on creating returns to update a plan's Organizational Profile, follow the steps listed in the [Manage Corporate Returns Quick Reference Guide \(PDF\)](#) or, for more detailed instructions, refer to Section 3.5 - General Instructions on How to Create a Corporate Return of the RRS [Manage Corporate Returns: User Guide \(PDF\)](#).

If names or contact information need to be updated for more than one plan role, there is the option of creating one return and entering all the updates in the single return or creating a separate return for each update.

Once the necessary returns have been created, they will appear in the Draft Returns section, the same location where all other returns are stored until completed and submitted.

2. Open each created return in the Draft Returns section and complete the necessary updates. For instructions on completing these updates, refer to Section 4.0 – Specific Corporate Returns Instructions of the RRS [Manage Corporate Returns: User Guide \(PDF\)](#).

As with other returns in the Draft Returns section, these returns can be saved in draft form until they are fully completed and ready to submit.

3. Once a return is ready to submit, go to the Submit Return sub-menu in the Submission section and click on the "submit" button next to the return you wish to submit.

A PRPP's Organization Profile can be updated by submitting a corporate return through RRS at any time during the year. Updates should be made as soon as changes occur. This provides OSFI with the most recent contact information and will expedite the completion of the PPACC at year end.

Once information in the PRPP's Organizational Profile is updated, complete and submit the PPACC.
