OSFI is issuing a revised version of Guideline E-22, which is effective immediately. The revisions consist of two changes: (1) a clarification on the treatment of securities issued by entities that receive capital support from the US government, and (2) the extension of the final implementation of the initial margin requirements by one year.

The extension of the final implementation of the initial margin requirements is in line with the internationally agreed upon one-year extension *Basel Committee and IOSCO agree to one-year extension of the final implementation phase of the margin requirements for non-centrally cleared derivatives*, July 23, 2019 https://www.bis.org/press/p190723.htmhttps://www.bis.org/press/p190723.htmhttps://www.bis.org/press/p190723.htmhttps://www.bis.org/press/p190723.htmhttps://www.bis.org/press/p190723.htm

Questions on the revised guideline should be sent to Patrick Tobin, Capital Specialist, Capital Division by email (Patrick.Tobin@osfi-bsif.gc.ca).
