Footnotes

- 1 OSFI is of the view that this class refers to foreign regulated entities that are subject to regulatory regimes that are substantially similar to the ones applicable to equivalent Canadian entities listed in classes 1(a) or (b) above. For example, in order to be a class 1(c) entity, a foreign entity that primarily engages outside Canada in a business that, if carried on in Canada, would be the business of providing fiduciary services would have to be regulated in a substantially similar manner as a trust company subject to the TLCA or referred to in paragraph 453(1)(g).
- 2 Depending on the circumstances, an entity's role as general partner of a limited partnership may also cause the entity to be a financial agent (class 3 above). In addition, OSFI generally views a general partner's nominal interest in a limited partnership as being ancillary to its general partner activities and, as a result, generally does not view a general partner as also being an investment holding entity (class 4 above) with regards to the limited partnership.
- 3 OSFI is of the view that if an OE engages in services referred to in paragraph 453(2)(c) and in another paragraph within 453(2), then the OE should be categorized under that other paragraph. For example, where a Company seeks to acquire control of an OE that will provide information technology services exclusively to members of the Company's group, that entity should be categorized as a 453(2)(a) entity rather than a 453(2)(c) entity. In such a case, the acquisition would require the Minister's approval under 453(5)(d.1), assuming the entity's services are not contemplated by the *Information Technology Activities Regulations*.
- 4 This is effectively an exception to the general approval requirement referred to in class 5(b) above.
